T.H. Nelson
Sys Consultant
Box 1546
Poughkeepie, N.Y. 12603

Dear Mr. Nelson:

Thank you for your interest in our new product, the "Du-All" TapePrinter. In addition to making INSTANT RUBBER STAMPS, the TapePrinter machine also makes embossed three-dimensional plastic labels for just pennies. The Model TP-3840 and the Model TP-1250 were designed specifically for use in offices and industrial plants. The Kits retail at \$39.95 and \$49.95 respectively. For the home, student, etc., the Model TP-3820 Kit retails at \$19.95.

We are pleased to enclose for your information, catalog sheets depicting the contents of each Kit together with literature on some of our other fine products.

We would like to suggest that you pay particular note to two of our other new products that were recently introduced and were received with overwhelming enthusiasm and response. Especially significant is the fact that these new products are an exclusive by our company and for which our competitors have no comparable products. The Cloth TapePrinter Kit makes instant iron-on labels as well as embossed plastic labels, again, for just pennies. The prestige line of Lustr-Color tape features gold or silver foil edge borders, giving the embossed label a distinctive, decorative, effect. These new products have been heralded as the first real breakthrough in advancing the state of the art of our industry.

We hope that we may have the opportunity of serving your requirements and we again thank you for the courtesy of your interest.

Yours very truly,

COM-TECH, INC.
